NATCO Technologies Internet

Minimum Equipment Requirements

The recommended computer system requirements for Internet use are:

- A personal computer with a 486 or equivalent processor, 64 Mb of RAM, 100 Mb of free hard drive disk space for systems without Internet software (Windows® 98 or above has Windows® Internet Explorer®);
- A telephone line, NATCO high-speed Internet line, or WildBlue satellite dish;
- A conventional analog modem with a speed of 33.6 or faster, ADSL modem, or WildBlue modem;
- Internet software such as Windows® Internet Explorer®, Mozilla®, Firefox®, or Safari®.

Additional Technical Support

For hardware issues, network configuration and support, or problems with customer websites, NATCO recommends you contact those specific providers for support. NATCO does not assume responsibility for the function and/or maintenance of hosted sites.

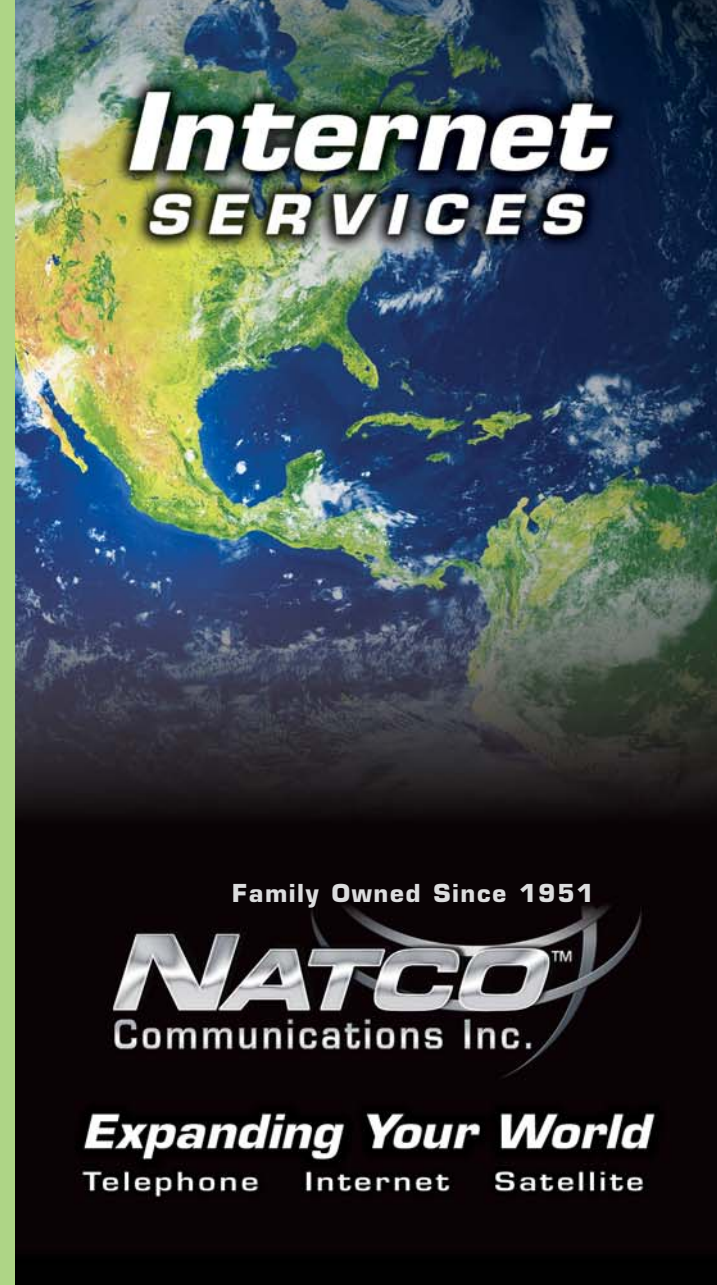

NATCO Technologies and our Internet Partner in Mountain Home, Brooks-Jeffrey Marketing, Inc. offer hourly-based computer repair and upgrade services:

- On-site installation and repair service to customers who wish for a technician to travel to their home or office.
- Issues not covered under NATCO Tech's free technical support (problems caused by the installation and/or deletion of software, etc.)
- Limited technical support for operating systems no longer supported by their manufacturer.

NATCO Technologies Internet Benefits

Unlimited access for single user

Free 24/7 over-the-phone technical support - All NATCO Tech customers - 24 hours a day, 7 days a week! Our technicians will provide free configuration assistance over-the-phone for the following:

- New computer purchases requiring configuration.
- Upgrades on your NATCO access service or adding services (including additional email accounts, upgrading from modem access to high-speed Internet, etc.) A \$10 activation fee will be charged for each added service.
- Email or connection problems.

Toll-Free Tech Support 1-888-276-8059

Additional Technical Support - For support not covered under our free support we offer hourly rate support (see back of brochure for details.)

Free local Internet access number - Available for communities in the NATCO Tech service area. NATCO Tech provides local dialup for specific exchanges. Any toll calls are the customer's responsibility.

Free one-time system configuration

Over-the-phone or PC owners may bring your computer to NATCO or NATCO's Internet Partner (by appointment). If you require software, please discuss options with the technician.

Free Internet Quick Class - All new subscribers can attend one 1-1/2 hour Internet introduction class, taught at NATCO's Internet Partner in Mountain Home, Brooks-Jeffrey Marketing, Inc. - call (870) 425-8064.

Fast service - If you're a new user, you can schedule an appointment to bring in your computer. Advanced users may speak with a technician over-the-phone to set up service. New customers who require only over-the-phone setup service can be online within hours of signing up.

Free newsletters - Subscription to NATCO's customer newsletter and electronic newsletter.
