

Publishing A Web Site

If you are building your own Web site or have hired a firm to build a site for you, **one of your first steps is to secure space on one of NATCO Technologies' servers.** We will assign your site to a server that fits your needs. Call NATCO Technologies at 1-800-775-6682.

Virtual Domains

With a virtual domain, you receive many of the benefits of hosting your own domain without the hassle of managing a server.

Web Site Building and Maintenance

NATCO Technologies does not build or maintain Web sites. NATCO's Internet Partner in Mountain Home, Brooks-Jeffrey Marketing, Inc. offers Web site building and maintenance services for NATCO customers. NATCO does not assume responsibility for the function and/or maintenance of hosted sites.

Web Hosting Packages

NATCO offers packages or "a la carte" Web hosting services. You may choose from one of the packages or create your own from NATCO's Web hosting options.

WEB SITE SERVICES

Server space - In increments of 5 megabytes.

Web site address - www.southshore.com/~yourname (12 character max).

Virtual domain - Address hosting.

Traffic reports - NATCO Technologies' traffic report allows you to track the traffic to your site. The online reports are available in text and graph formats. The information details the server pages accessed and other traffic patterns. A \$10 setup fee will be charged to establish this service. Available for virtual domain sites only.

CGI-bin directory - NATCO Technologies will provide you access to a CGI-bin directory.

File Transfer Protocol - You and/or your Web site builder will be assigned a password that will allow you to load pages to your site via FTP.

Regular back-ups - We recommend that you or your Web site builder maintain current back-ups of your site at your location. NATCO Technologies does perform regularly scheduled back-ups for all information hosted on NATCO Tech servers, which would be used for emergency restoration if needed.

Online yellow page link - A link to your site from NATCO and South Shore Online Yellow Pages (www.natcotech.com/yellowpages/).

Power redundancy - NATCO Technologies' servers have full generator back-up in case of unforeseen power failures.

Packages & prices effective June 2005. Prices & offers subject to change without notice. A one month minimum fee is required for all Internet services.
